The Wireless Router 300N X2 makes it possible to wirelessly share files and broadband Internet access, as well as the peripheral devices attached to the desktop PC's and notebooks in your network. This 300N router guarantees reliable performance with demanding applications, such as HD video and audio, VoIP, multiplayer gaming and the transfer of large amounts of data with speeds up to 300 Mbps. Thanks to the WPS hard button, you can establish a secure wireless network connection with just the push of a button. The 2 internal antennas reduce "dead spots" and guarantee an extensive coverage at home and the home-office.
